News in brief for the partners & friends of Wolf GmbH

## Factory of the Year 2011

### Wolf wins in the "Outstanding Assembly" category

#### Another major achievement from your partner Wolf

Due to extremely flexible assembly and a versatile team, Wolf has won the "Outstanding Assembly" category in the Factory of the Year 2011 competition.

Wolf's performance convinced the competition judges from management consultants A.T. Kearney, who visited Wolf at the beginning of September and inspected the manufacturing plant.

The Factory of the Year Award is Germany's oldest and most difficult benchmark competition for the manufacturing industry. The winner of the 2011 competition will present their successful designs in March 2012 at a gala event in Dresden. The presentation comes under the auspices of the German Federal Ministry of Economics and Technology.

- *Wolf is synonymous with efficiency, quality and reliability*
- *Wolf is innovative and very well prepared for the future*
- *Wolf can successfully compete with much larger organisations*

Perfectly prepared for the future with Wolf:  
Ask your local Wolf sales consultant  
who will give you informed advice.
